2015 Chevrolet Impala Compressed Natural Gas (CNG) Technology

The 2015 Chevrolet Impala Compressed Natural Gas (CNG) vehicle incorporates a Manual Fuel ¼-turn shut-off valve that stops CNG fuel flow in the CNG System.

To disable or stop fuel flow in the CNG system:

- Turn the Manual Fuel ¼-turn shut-off valve (located in front of the left rear wheel opening) so the valve points downward.

**Manual Fuel ¼-Turn Shut-Off Valve
ON, allowing fuel flow**

**Manual Fuel ¼-Turn Shut-Off Valve
OFF, preventing fuel flow**
